According to the latest stats compiled by **Gaydar.net**, size queens need look no further than **Greece**. Turns out the birthplace of big thick Corinthian columns is also home to the **most "Extra Large Dicks,"** not to mention the third-most "Tops." Now we *really* understand the allure of Mykonos.

Top of the "**Tops**" goes to **Egypt**, which also grabs a bronze in "Extra Large Dicks". Sadly, that's a lot of desert sand tossed in the face of poor hunky Italy, which failed to make the top 5 grade in any category. (Go anyway. All those furry Romans will need consoling.)

So, whether planning a mid-summer jetaway, a date with a visiting **Gaydar.net** traveler or just curious, take a look!
